(a) X: near (solid) and far (dashed) neighbour
data
Gaussian footprint 0.30 mm
σ0 0.25 mm + k1 0.06
coupling k1 0.13, σ0 0.03 mm
footprint 0.07 mm
neighbour / centre at t0
|position in strip| (pitch)
(b) closure with known truth and refitted p0
data (pass p0)
truth: Gaussian 0.32 mm, refit p0
truth: pure coupling 0.13, refit p0
pure coupling, true p0
neighbour / centre, early window
|position in strip| (pitch)
